Delegated Regulation (EU) 65/2014

|                                                           |                             |
|-----------------------------------------------------------|-----------------------------|
| Supplier name or trademark                                | <b>Beko</b>                 |
| Model identifier                                          | <b>BQE22300X 7768288321</b> |
| Number of cavities                                        | <b>1</b>                    |
| <b>Cavity 1</b>                                           |                             |
| Energy Efficiency Index                                   | <b>95,5</b>                 |
| Energy Efficiency Class                                   | <b>A</b>                    |
| Energy consumption per cycle (conventional mode)          | <b>0,95 kWh</b>             |
| Energy consumption per cycle (fan-forced convection mode) | <b>0,81 kWh</b>             |
| Heat source                                               | <b>Electric</b>             |
| Volume                                                    | <b>71 Litres</b>            |
