## Immersive Dual 4K

The MX2 dock can support up to two stunning external displays\*. The dock supports extension or mirroring across the two external displays when used with a Windows Laptop.

\* The quantity and resolution of video outputs supported is dependent on the capabilities of the computer used with the docking station. Mac laptop users who use the MX2 can only mirror their laptop screen. This is a good solution for Mac laptop users who want to run a single monitor display that's much larger than the laptop screen they are mirroring.

Refer to the resolution support table for details on the output capabilities of computers based on their specifications.

## KEEP YOUR LAPTOP CHARGED

Up to 65W Charging Power

## Ports for Versatile Work Stations

When you have a lot going on, so does the MX2. It fast-charges laptops with up to 65W of power, supports up to two displays, and delivers connectivity for standard peripherals including Ethernet, audio/microphone jack and USB accessories. All at the same time.

## SIMPLIFIED CONNECTIVITY

### DP Alt Mode Technology

The MX2 makes multi-display set ups simple. Featuring DP Alt Mode technology, it connects directly with up to two displays and multiple other accessories. No need to install drivers or software. Plug in and go.

**“PLUG & PLAY”**

### SINGLE 5K DISPLAY WITH MAC

The MX2 delivers Mac users a picture-perfect single display for their desk set up.

### DUAL 4K DISPLAYS WITH WINDOWS

Windows users can plug into the MX2 to run up to two ultra-polished external displays.
