

# CoolBox

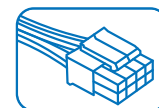

## CORE-G 500

### FUENTE DE ALIMENTACIÓN AFX 500W

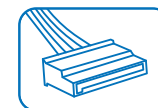

SILENCIOSA • FÁCIL INSTALACIÓN • VENTILADOR 140MM

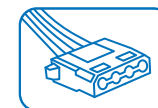

1 x ATX 20 + 4 pines

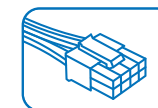

2 x 12V 8 pines (4+4)

6 x SATA

3 x Molex

2 x PCI-e 6 + 2 pines

|                     |                          |      |      |       |       |
|---------------------|--------------------------|------|------|-------|-------|
| AC Input            | 100-240V ~ 12-6A 47-63Hz |      |      |       |       |
| DC Output           | +3.3V                    | +5V  | +12V | -12V  | +5VSB |
| Current             | 20A                      | 20A  | 70A  | 0.5A  | 2.5A  |
| Max. Output Wattage | 100W                     | 450W | 6W   | 12.5W |       |
|                     | 500W                     |      |      |       |       |

|                 |                                                          |
|-----------------|----------------------------------------------------------|
| Potencia máxima | 500W                                                     |
| Tipo            | AFX                                                      |
| MTBF            | 100.000 horas                                            |
| Eficiencia      | Eficiencia >=90% (carga del 50%), >=87% (carga del 100%) |
| Protecciones    | OPP / OVP / UVP / OCP / SCP                              |
| Ventilador      | 140mm termorregulado silencioso                          |
| Certificación   | 80 Plus GOLD                                             |
| Temperatura     | 0°C ~ 50°C                                               |
| Dimensiones     | 150 x 160 x 86 mm                                        |
| Peso            | 2,18Kg (sin cables)                                      |
| Part Number     | COO-FA500-AGLD                                           |
| EAN             | 8436556143724                                            |
