Cable management panel vertical 42U black for 19" rack

Vertical finger duct cable management panel for use in 800 mm wide 19" rack cabinets.

Mounted vertically from top to bottom between the 19" clamp and the side plate the panel make it easy to route cables in the rack cabinet and provides a very tidy cable management system.

The the removable split covers can be left or right hinged and provide easy access for routing and organizing cables.

- keep cables away from your rack and provide additional airflow to your equipment
- more surface for mounting
- can secure and manage up to 24 cables in 1 U
- provides strain relief, bend radius control, superior aesthetics
