

The 76-inch, industrial-level dye sublimation printer that raises productivity standards.

The SureColor SC-F10000 has been developed primarily for fast, high-volume dye sublimation printing. Its robust design provides consistency, reliability, high-quality throughput and it supports numerous applications, including: fashion, sportswear, home furnishings and soft signage.

Repeatable quality

Epson manufactures all the components for the SC-F10000, including printheads, inks and software, in order to reach the consistent quality levels that users demand. Further support is delivered through EMX files, along with Epson media, to provide correct colour profiles and machine settings. Also, the PrecisionCore MicroTFP printhead, with a total of 12,800 nozzles and 4.7-inch width, offers a larger printing surface for faster output.

Trusted reliability

The robust, industrial build quality of the SC-F10000 helps to produce high-quality output, day after day. The printer's reliability is further enhanced by: Advanced Auto Tension Control (Ad-ATC) for accurate and stable media feeding even on thin media, auto-adjustment technology (including an integrated RGB camera), and supporting software that allows users to monitor printer performance, even remotely. The SC-F10000 also incorporates operator-replaceable parts to increase uptime and improve productivity.

High productivity

Every component in the SC-F10000 has been specially designed, not only to enhance the user experience, but to help increase output, improve efficiency and lower costs. User productivity is further improved, thanks to the bulk ink solution (3-litre and 10-litre ink boxes) and a 'hot-swap' ink changeover function.

Speed

The PrecisionCore MicroTFP printhead and a highly efficient dryer allow the SC-F10000 to print up to 255m²/hr, combining quality with high speed printing.

KEY FEATURES

- **Bulk ink solution**
10-litre or 3-litre ink boxes supported by 'hot-swap' function
- **High-speed printing**
Up to 255m²/hr
- **Epson Precision Dot Technology**
Three dedicated dye-sub technologies (Halftone, LUT and Micro Weave)
- **Advanced Auto Tension Control**
For accurate and stable media feeding
- **The complete Epson solution**
Including printheads, ink, firmware and software.

SUPPLIES

● UltraChrome DS High Density Black T43B140 (3ltr)	C13T43B140
● UltraChrome DS Cyan T43B240 (3ltr)	C13T43B240
● UltraChrome DS Yellow T43B440 (3ltr)	C13T43B440
● UltraChrome DS Magenta T43B340 (3ltr)	C13T43B340
● UltraChrome DS High Density Black T43H140 (10ltr)	C13T43H140
● UltraChrome DS Cyan T43H240 (10ltr)	C13T43H240
● UltraChrome DS Magenta T43H340 (10ltr)	C13T43H340
● UltraChrome DS Yellow T43H440 (10ltr)	C13T43H440
● Wiper Roll SC-F10000	C13S210065
● Maintenance Kit S210103	C13S210103
● Waste Ink Bottle 4L	C13S210071

OPTIONAL ACCESSORIES

- Media Cleaner Brush
C12C936031
- Presser Roller Spacer SC-F10000
C12C936041
- Take In Media Holder SC-F10000
C12C933901
- Take Up Media Holder SC-F10000
C12C933881

LOGISTICS INFORMATION

SKU	C11CF84301A0
