

HP DesignJet Z9+ Pro 64-in Printer

High-precision maps with dual roll productivity¹

*Product image may differ from actual product

PRECISE—High precision and fine line detail

- Rely on clear PDF output—see excellent transparencies and layers reproduction—with Adobe PDF Print Engine.²
- Achieve fine details, sharp contour lines and text with high-definition HP HDNA printheads.
- Get smooth gradients and reproduce distinct shades of color with HP Pixel Control.
- Work with water- and fade-resistant prints with HP Vivid Photo Inks.³

PRODUCTIVE—Enhanced efficiency, higher speed⁴

- Save media change time—up to 40%—with dual roll option for two media types/sizes, automatic roll switching.⁵
- Be more efficient—experience fast media handling, spindle-less and automatic roll feed.⁶
- Be more productive—print 2X faster on plain paper at the same quality⁴ and easily handle production peaks.
- Reduce supplies interventions with recyclable 1-liter HP Eco-Carton ink cartridges.⁷

SECURE—Ultimate security to protect your work

- Protect your data with encrypted communications and Access Control List.
- Control who accesses the printer and its confidential documents with secure PIN printing.
- Keep devices secure, set security preferences—any time—with HP Jet Advantage Security Manager software.⁸
- Rely on outstanding network protection with HP Connection Inspector, HP Secure Boot, and Whitelisting.

This printer is intended to work only with cartridges that have a new or reused HP chip, and it uses dynamic security measures to block cartridges using a non-HP chip. Periodic firmware updates will maintain the effectiveness of these measures and block cartridges that previously worked. A reused HP chip enables the use of reused, remanufactured, and refilled cartridges. More at: <http://www.hp.com/learn/ds>

Messaging Footnotes

¹ Dual roll option must be purchased separately.

² Adobe PostScript®/PDF upgrade kit sold separately. The Adobe PDF Print Engine (APPE) is Adobe's high speed, high fidelity print platform. Version 5.5 extends APPE's leading edge for print reproduction with performance efficiencies and breakthrough rendering features. APPE 5.5 enables printers to increase workflow efficiency and capitalize on the profit potential of innovations in inkjet print technology. To learn more, visit <http://www.adobe.com/products/pdfprintengine>.

³ Performance may vary based on writing system differences. Print permanence estimates by HP Image Permanence Lab based on the same formulation of HP Vivid Photo Inks used with the HP DesignJet Z6200 Photo Production Printer, using 6 inks. Water resistance performance varies based on printer and print profile. Water resistance testing by HP Image Permanence Lab on a range of HP media and follows ISO 18935 method. For more information, see <http://www.HPLFMedia.com/printpermanence>.

⁴ Faster compared to the HP DesignJet Z6810 60-in Production Printer. Based on internal HP testing, January 2021. Using plain paper and Fast mode, the HP DesignJet Z9+ Pro 64-in Printer can achieve speed of 1055 ft²/hr (98 m²/hr at the same quality as the HP DesignJet Z6810 60-in Production Printer using plain paper and Normal mode at speed of 549 ft²/hr (51 m²/hr).

⁵ Up to 40% less time based on internal HP testing in February 2021 compared to HP DesignJet Z6610/Z6810 60-in Production Printers without second roll option. HP DesignJet Z Pro Series 64-in Multifunction Roll sold separately.

⁶ Based on testing commissioned by HP and performed by Sogeti in January 2021 comparing the HP DesignJet Z9+ Pro 64-in Printer and comparable competitive printers that represent the majority market share worldwide as of 2020 according to IDC, by loading a 44-in roll of Océ draft paper 75g/m². Measuring time from loading the roll in the "roll holder" until the printer finishes the loading. Test performed under the same conditions in both printers (loading upper/top roll and using default settings for skew and size detection).

⁷ The ink cartridge HP Eco-Carton outer carton is 100% recyclable through local cardboard/paper programs. Inner materials including the ink bag are 55% recyclable and can be returned free of charge to the HP Planet Partners program for reprocessing of plastic parts. Zero landfill. For take-back of ink bag/printheads/prints, visit <http://www.hp.com/recycle> to see how to participate and for HP Planet Partners program availability; program may not be available in your jurisdiction.

⁸ HP JetAdvantage Security Manager must be purchased separately. For details, see <http://www.hp.com/go/securitymanager>.
