SenseIQ technology

- Always the optimal pressure with the Pressure Guard Sensor
- 30% smoother*** gliding with Protective SkinGlide Coating
- Adapts to your contours with 360-D Flexing Heads

A closer shave

Shaver 9800

Wet & Dry electric shaver with SenselQ

S9987/85

Highlights

Lift & Cut System

Our patented, unique Lift & Cut rotary technology lifts the hair gently out of its root before cutting it precisely at skin level close (up to 0.00 mm to the skin) without the blades even touching your skin.

Dual SteelPrecision blades

Philips rotary shavers are specifically designed to match your natural hair growth, capturing all the hairs growing in any direction, thanks to 360-degree rotating blades. With up to 150,000 cutting actions per minute, the Dual SteelPrecision blades cut more hair per stroke**.

Pressure Guard sensor

Using the right pressure is key for closeness and skin protection. Advanced sensors in the shaver read the pressure you apply, and the innovative light signal shows when you are pressing too hard or too little. For a personalized shave that is just right for you.

360-D Flexing heads

Designed to follow the contours of your face and even the neck, this Philips electric shaver has fully flexible heads that turn 360 for a thorough and comfortable shave.

Protective SkinGlide coating

A protective coating lies between the shaver heads and your skin. Made of up to 250.00 micro-tech beads per square centimeter, the coating improves gliding by up to 30%***, to minimize irritation.

Power Adapt Sensor

The electric shaver has intelligent facial-hair sensing technology that reads hair density 500 times per second. The Power Adapt Sensor auto-adapts the cutting power for an effortless and gentle shave.

Personalization via app

Perfect your shave by pairing your shaver with the Philips Shaving App****. Shave by shave, track the progress of your skin, personalize your shave and master your technique for a shave that's as close as it is kind to skin.

Cable-free Quick Clean Pod

Powerful cleaning pod thoroughly cleans and lubricates your shaver in just 1 minute, keeping it performing at its best for longer. The pod is 10x more effective than cleaning with water*****. It is the world's smallest cleaning pod, so you can store it easily and use it anywhere.

Wet & Dry

Adapt your shaving routine to your needs. With Wet & Dry, you can go for a comfortable dry shave or a refreshing wet shave. You can shave with gel or foam even under the shower.

Highlights

Pop-up trimmer

Complete your look using the shaver's pop-up precision trimmer. Integrated into the shaver's body, it's the perfect way to maintain a mustache and trim sideburns.

Sustainability

By replacing 50% of our internal plastics with recycled plastics, we are saving tons of virgin plastic in our production. On top of that, our blades are made with durable space-grade steel and produced in a factory that uses 100% renewable energy.

Beard styler attachment

Change your look with the click-on beard styler. Choose from 5 length settings to create anything from a perfect stubble to a neatly-trimmed short beard. The beard stylers rounded tips and combs are designed to prevent skin irritation.

Charging stand

Fully charge your shaver within 1 hour in the stand. A stand created for both conveniently charging your device and neatly storing it away.

Advanced OLED display

The first Philips shaver with a dynamic OLED display reveals every shaver feature and notification with sharp, fluid animation. The intuitive interface includes SenseIQ guidance, battery status, cleaning advice and more.

60 minutes of cordless shaving

This advanced charging system gives you two convenient options: 60 minutes of running time after a full charge, or a quick charge for one shave.
