

ideapad S540 (13")

STYLE AND ABILITY IN ONE.

AIN'T NO STOPPING YOU NOW.

The power of Artificial Intelligence (AI). Out-of-this-world graphics capabilities. And best-in-class connectivity, both wireless and wired. Up to 11th generation Intel® Core™ i7 processor, the Lenovo™ IdeaPad™ S540 lets you tap into all of this, as well as enjoy seamless performance and up to full-day battery life.

WHY YOU SHOULD BUY THE LENOVO IDEAPAD S540 (13")

Work smarter, not harder

Thanks to its built-in AI features, the IdeaPad S540 will soon make your life easier. Login hands-free with an IR camera that recognizes when you're ready to use the laptop. You can also ask Cortana to do various tasks for you, such as find something online or make an appointment.

Real game-changing performance

The optional NVIDIA® GeForce® MX450 supercharges your laptop for work and play. Now, you can expect up to 3.5x faster performance over integrated graphics for photo- and video-editing applications, as well as faster, smoother gaming.

See everything in a new light

Along with narrow bezels on all sides, wide-angle viewing, and 300 nits brightness, the 13.3" QHD display has some of the best color calibration out there and one of the highest PPI scores. The result is truly sumptuous viewing —with more life-like colors, crystal-clear images, and easier-to-read text.

A cooler laptop in more ways than one

Equipped with a powerful new way to manage your computer's cooling, with intelligent thermal solutions, now you can choose a different mode to fit the task at hand enabling you to work, play and binge watch for longer in comfort.

BIG-TIME ENTERTAINMENT IN REMARKABLY THIN AND LIGHT DESIGNS.

Up to 11th Generation Intel® Core™ Processors and Intel® Iris® Xe graphics, break the boundaries of performance for thin and light laptops.

- Lenovo Utility⁹

¹ Available only on ITL configuration.

² Available only on IML configuration.

³ All battery life claims are approximate and based on two methods of testing: MobileMark® 2014 battery life benchmark and continuous 1080p video playback on the latest update of Windows 10 (with 150 nits brightness and default volume level). Actual battery life will vary and depends on many factors such as product configuration and usage, software use, wireless functionality, power management settings, and screen brightness. The maximum capacity of the battery will decrease with time and use.

⁴ The actual transfer speed of the USB 3.2 will vary and, depending on many factors, such as the processing capability of host and peripheral devices, file attributes and other factors related to system configuration and your operating environments, will be slower than a speed of 20 Gbit/s.

LENOVO SERVICES

Warranty Upgrades - On-site / In-Home Service

Maximizes PC uptime and productivity by providing convenient, fast repair services in your own home.

Accidental Damage Protection

Avoid the hassles of unexpected repair costs. Provides coverage for non-warranted damage incurred under normal operating conditions, such as minor spills, drops or damage to the integrated screen.

Warranty Extensions (1-to-3 Years Total Duration)

This fixed-term, fixed-cost service helps accurately budget for PC expenses, protect your valuable investment and potentially lower the cost of ownership over time.
