# Matrox® Release note – Under desk mounting kit

F20326-401-0100

2021.08.12

These release notes contain important information about your Matrox product. These notes are available in English only. We apologize for any inconvenience this may cause.

---

## Mounting your units

This document provides guidelines for mounting your Matrox unit under a desk or similar flat surface using the included mounting brackets.

### Hardware supplied

An under desk mounting kit for a Matrox unit includes:

- 2× mounting brackets
- Pan-head screws (2× 6 mm M3)

### Hardware required

You will need the following hardware (not included in your kit):

- A drill for drilling holes into your desk or into a similar flat surface.
- Mounting screws for mounting the brackets to the desk or to a similar flat surface.
- A screwdriver for tightening the screws.

---

## Mounting guidelines

To prevent damage to your Matrox hardware, read the following guidelines before mounting your Matrox hardware:

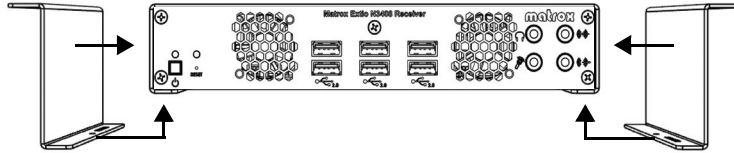

- Use a hand screwdriver to carefully tighten each screw. Make sure to not overtighten the screws.
- Make sure the cables connected to your unit are properly secured and that no tension is applied to them.
- Make sure the ambient temperature doesn't exceed the maximum recommended temperatures. For more information, see the "Product information" section of your user guide.

Once your unit is mounted, you can connect your system, monitors, and devices to your Matrox unit.

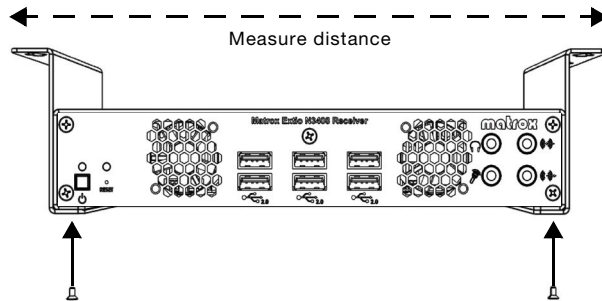

## Mounting your Matrox units under a desk

You can mount your Matrox units under a desk or to a similar flat surface using the two (2) mounting brackets included in your kit.

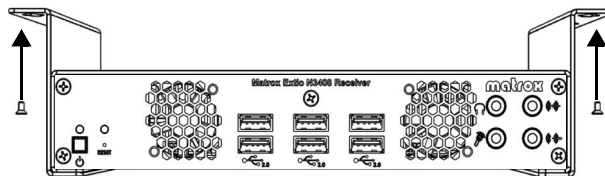

- 1 If needed, peel off the rubber bumpers from the bottom of your Matrox unit, then position the brackets as shown.

- 2 Use two (2) 6 mm M3 screws (included in your kit) to secure your Matrox unit to the brackets, then measure the distance between the bracket mounting points to determine where on your desk to drill the holes for the brackets.

- 3 Use two (2) M4 screws (not included) to attach your brackets to the desk as shown.
