

PHILIPS

First Shave

OneBlade First Shave

Tough on hair, gentle on skin

Anti-friction blade

Rechargeable

Wet and Dry Use

QP2515/16

Tough on hair, gentle on skin

Effortless and protective from shave one

Power through easily with the Philips OneBlade First Shave. It's the clean-shave codebreaker designed to keep nicks, cuts and burns at bay with one hand, while defeating old-fashioned blades with the other. Ready? Go.

Easy to use

- Durable OneBlade
- Long lasting battery
- Water resistant: Use wet and dry
- Dual-sided blade

Clean shave

- Shave it off
- Unique OneBlade Technology

Protective shave

- Anti-friction blade
- Dual protection system

OneBlade First Shave

First Shave

QP2515/16

Highlights

Unique OneBlade Technology

It's fast. Like really fast. Philips OneBlade uses a revolutionary cutter to power through any length of hair. 200 movements per second give you a fast, clean shave while caring for skin.

Dual protection system

It's safe. Like, really safe. A protective plate on top of the cutter, and rounded tips instead of pointed ones, makes the blade glide smoothly. That is how OneBlade helps to protect skin from nicks and cuts.

Anti-friction blade

It's smooth. Like really smooth. We added a layer of micro-glass beads to dial down friction while you shave. And because that helps reduce razor burn, you don't need foam or water.

Shave it off

Make quick work of your shave by moving against the grain. While you do that, OneBlade First Shave helps keep your shave clean and comfy because it never gets too close.

Durable OneBlade

These blades are designed to last. Replace them every 4 months* to keep your shave fast and skin friendly. Get your replacements online and instore.

Long lasting battery

The rechargeable battery delivers 30 minutes of constant performance. Plenty of time to ace that shave.

Wet and dry

OneBlade is water resistant, so it is easy to clean: just rinse it under the tap. You can shave wet or dry, with or without foam - whichever you prefer.

Dual-sided blade

Unique double-sided protective blades means you can shave in any direction, giving you more time to play and less time shaving.

Specifications

Power

Charging: 8 hour full charge

Battery type: NIMH

Run time: 30 minutes

Automatic voltage: 100-240 V

Max power consumption: 5.4 W
