

ThinkCentre M70q GEN 2

At Lenovo, we design real solutions for real people who work, innovate, and excel in a variety of industries and settings. It's one of the reasons we pioneered the first 1L Tiny desktop and space-saving Tiny-in-One (TIO) years ago. And it's why we continue to design even more powerful devices that blend seamlessly into today's shifting and shrinking workspaces.

The newest ThinkCentre M70q Gen 2 makes big ideas possible with up to Intel® Core™ i9 processors, which offer enterprise-level power, speed, and potential in a desktop so small it can fit—or hide—almost anywhere. Bundled with TIO, ThinkCentre M70q Gen 2 offers even greater value and more cost-effective upgrade options. From corporate offices to retail salesfloors, healthcare to hospitality settings, ThinkCentre M70q Gen 2 combines everything users want with the security and manageability capabilities businesses need.

ThinkCentre M70q Gen 2

FULL-SIZE PERFORMANCE

This Tiny desktop boasts full-size processing power with up to Intel® Core™ i9 processors, up to two DDR4 SODIMM (3200MHz), and dual punch-outs that allow users to configure ThinkCentre M70q Gen 2 to meet their needs.

SECURITY INSIDE AND OUT

ThinkCentre devices allow your employees to innovate fearlessly with the reinforced security of ThinkShield, the most comprehensive, end-to-end security solution on the market that combines industry-leading hardware, software, services, and processes to protect your ideas and your business. ThinkCentre M70q Gen 2 has built-in ThinkShield features, including a TPM 2.0 chip, in addition to many more security features that can be customized to meet your unique needs. Meanwhile, a Kensington™ Cable Lock slot keeps thieves from literally walking away with your data.

EASY EXPANDABILITY

ThinkCentre M70q Gen 2 is designed to grow with your business. From industry-specific equipment to legacy peripherals, this desktop can connect them all.

COMPREHENSIVE MANAGEABILITY

This Tiny desktop is easy to deploy, upgrade, and manage thanks to built-in driver support for older OS versions. Toolless access to the SSD and memory module make expansion and maintenance fast and efficient.

ENHANCED USER EXPERIENCE

ThinkCentre M70q Gen 2 is designed with people—and shrinking workspaces—in mind. Its sleek, modern design and compact 1L form allow this Tiny PC to fit seamlessly into modern offices, healthcare, finance, or retail environments either sitting out, mounted out of the way, or bundled with Tiny-in-One (TIO). Users can connect ThinkCentre M70q Gen 2 to as many as three displays for maximum multitasking, while a USB-C port located on the front panel offers fast charging and quick data sharing.

purposeful design

ThinkCentre M70q Gen 2 enhances the computing experience with practical features like Smart Power On, which allows users to turn on the desktop using a simple keyboard shortcut. This is especially useful when the device—and its power button—are bundled inside TIO.

relentless innovation

We are inspired by our customers and what they want from our devices. It shows in the variety of mounting options we offer for ThinkCentre M70q Gen 2 and the added value this device presents when bundled with TIO. This combination allows businesses to upgrade monitors and PCs separately to save budget and offers users an even more clutter-free, space-saving design.

trusted quality

Lenovo's dedication to constantly improving product quality means rigorous testing for durability and reliability, which results in our products achieving one million hours mean time between failure. In addition to our extensive in-house testing for real-world challenges, ThinkCentre M70q Gen 2 is tested against MIL-STD methods and procedures.

Lenovo services

We offer a comprehensive portfolio of services that support the full lifecycle of your Lenovo IT assets. From initial strategic planning to customized configuration, deployment, support, protection, security, and asset recovery—Lenovo has solutions to help you embrace new workplace technologies.

LENOVO PREMIER SUPPORT

No matter where you or your employees are located, you have direct, 24x7x365 access to elite Lenovo engineers, unscripted troubleshooting, comprehensive hardware and OEM software support, priority on service delivery, repair parts, and more.

LENOVO DEVICE-AS-A-SERVICE (DAAS)

Combine hardware, services, and software into a single, flexible solution to maintain predictable monthly costs. This innovative, fully-managed model drives down capital IT expenses while ensuring your employees experience the latest technology to keep them secure and productive.

accessories

THINKCENTRE TINY VESA MOUNT II

The ThinkCentre Tiny VESA Mount II is uniquely designed to house the Tiny PC. This versatile mount device can be used separately or combined with other options for a secure mounting functionality.

THINKCENTRE TINY SANDWICH KIT II

The Tiny Sandwich Kit II is a mechanical bracket that enables more desktop and floor space while providing a secure solution to protect your Tiny PC. This attractive space-saving solution is constructed of high-grade steel and mounts easily. The open architecture provides easy access to various ports and control buttons of your ThinkCentre Tiny PC.

THINKCENTRE TINY IV DVD BURNER KIT

The ThinkCentre Tiny IV DVD Burner Kit provides excellent read/write capabilities using SATA interfaces for speedy execution. You just need to insert this DVD Burner to the VESA Mount to enjoy crisp, clear DVD playback and reliable DVD recording with your ThinkCentre Tiny DVD solution.
