XPG BATTLECRUISER CHASSIS

BUILT FOR
THE ULTIMATE GAMER

XPG BATTLECRUISER Super Mid-Tower Chassis

Geared towards discerning gamers, the XPG BATTLECRUISER offers flair, stability, functionality, and easy upgradability.

Looks That Kill

With a sturdy metal construction and tempered glass on four sides, the XPG BATTLECRUISER is an epic-looking super mid tower chassis. Take things up a notch with four pre-installed ARGB fans with 13 lighting modes, including Music Sync mode.
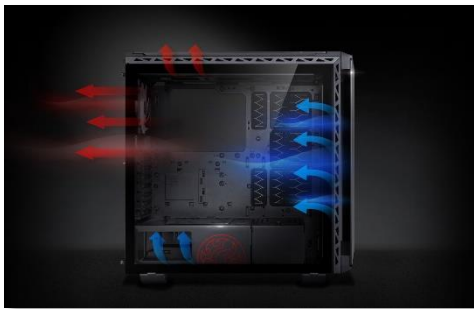

No Tools Needed

A magnetic front panel and dust-filter make installation a snap. The side panel and upper panel are easy to assemble as well, and without the need for tools.

Keeping It Cool

Revel in the XPG BATTLECRUISER's insane cooling capabilities including a high air flow layout, four 120mm ARGB fans as well as support for multiple radiators (up to 360mm) and a CPU cooler (up to 175mm).

Made with Upgrades in Mind

The interior layout is designed with future upgrades in mind. It supports an array of motherboards (up to 300mm/E-ATX), graphics cards (up to 400mm), dual GPUs vertically, and additional fans (up to three 120mm fans, and one 360mm radiator up front or on the top)
