BUSINESS DEVICES THAT ARE A CLASS APART

The mid-range ThinkPad L Series offers enterprise docking, enhanced security features and optional remote management capabilities.

ThinkPad L15 Gen 1 (Intel)

Smarter technology for all

Lenovo

Your workforce can stay productivity from anywhere now with this sleek business PC. Although mid-range, it comes with built-in biometric security and other modern features that boost performance. The expansive 15.6” anti-glare display ensures a more comfortable working experience for business professionals. There are short-cut keys for managing VoIP calls, and Modern Standby which can be configured to update emails and cloud-based apps even when the device is asleep.

REASONS TO BUY

Mobile users will appreciate the 12-hour battery that can optionally be charged to 80% capacity in just one hour. There are 2x USB-C ports for quick-transfer of videos, design files and large data sets, and to connect essential peripherals like an external monitor.

When working remotely, a weak WiFi network can throttle productivity. The optional 4G WWAN module in the device uses a cellular network to provide reliable data connectivity from anywhere.

Minimal preloaded applications mean maximum battery life and responsiveness for users, and faster deployment for IT admins.
