

So much fun on the farm

The sun is up and the rooster is crowing, time to get to work! Little farmers can explore lots of fun activities on the Little People® Caring for Animals Farm as they help Farmer Jed™ care for all the animal friends. As toddlers play, Smart Stages™ technology will introduce fun animal facts, early math and more through songs, sounds and phrases.

Features

Nap time! Tuck the horse into bed with the soft blanket.

Turn the silo to grab some corn for the chickens.

Cock-a-doodle-doo! Press the Discovery Button to “hatch” the eggs.

Who's hungry? Call the animals by ringing the metal bell.

What a wonderful little world

Hay is for horses – but so are hugs. That’s just one of the little life lessons that toddlers learn when they play with their Little People® friends. By creating kid-sized versions of real-life experiences, Fisher-Price® Little People® toys bring a whole world of adventures to the palms of their teeny hands.

Content changes as kids grow with Smart Stages™ technology

- Level 1 – Discover: Sung songs and phrases introduce little farmers to counting, animal sounds, opposites and more as they play.
- Level 2 – Experience: Fun phrases encourage toddlers to help care for the animals.
- Level 3 – Imagine: Farmyard sounds and instrumental music let kids create their own stories about life on the farm!
