

HyperX QuadCast S - USB Microphone (White-Grey) - RGB Lighting

STUNNING RGB MICROPHONE FOR STREAMERS AND CONTENT CREATORS.

The HyperX QuadCast™ S is a USB condenser microphone that both sounds great and looks great. The supremely stunning RGB lighting and dynamic effects will add style and flair to any stream or setup and is customizable via HyperX NGENUITY software. The QuadCast S is an all-inclusive mic, featuring an anti-vibration shock mount to help quiet the rumbles of daily life and a built-in pop filter to muffle plosive sounds. Instantly know your mic status with the LED indicator, and simply tap-to-mute to avoid awkward broadcasting accidents. With four selectable polar patterns, this mic's prepared for nearly any recording situation and also features a gain control dial to quickly regulate input sensitivity. The included mount adapter fits 3/8" and 5/8" thread sizes, compatible with most stands. QuadCast S is certified by Discord and TeamSpeak™ so you can ensure that your microphone is broadcasting loud and clear for all your followers and listeners, and you can also monitor your mic in real time using the convenient headphone jack on the back of the mic. It's multi-platform compatible, so you can deliver quality sound output whether you're connecting to a PC, PS5™, PS4™, or Mac®.

Key features

Radiant RGB lighting with dynamic effects¹

Personalize stunning RGB lighting and dynamic effects for an eye-catching shot of customizable style.

Tap-to-mute sensor with LED status indicator

Use the convenient tap-to-mute functionality to prevent an audio accident along with the help of the LED mic status indicator. By default, if the light is on, the mic is active. If the light is off, the mic is muted.

Customizable via HyperX NGENUITY Software

Personalize your RGB lighting and effects with HyperX NGENUITY software.

Mount adapter, pop filter, and headphone jack

Versatile adapter fits 3/8-inch and 5/8-inch threaded setups, compatible with most mic stands or boom arms². The internal pop filter helps block plosive sounds from hitting the mic, and you can monitor the mic via the headphone jack.

Built-in anti-vibration shock mount

Isolate the mic and suppress the sound of unintentional rumbles and bumps with the elastic rope suspension.

Four selectable polar patterns

Choose between four polar patterns (stereo, omnidirectional, cardioid, bidirectional) to optimize your broadcast setup and keep the focus on the sounds you want to be heard.

Gain control adjustment

Easily adjust your mic sensitivity by turning the dial at the bottom of the QuadCast.

Multi-device and program compatibility

Get great sound whether you're connecting to a PC, PS5™, PS4™, or Mac®. QuadCast S is certified by Discord and TeamSpeak™, and works on major streaming platforms like Streamlabs OBS, OBS Studio, and XSplit. No matter how you broadcast, you can be confident you'll be heard loud and clear.
