www.StarTech.com/TB4CDOCK

Minimum Requirements

- Host Computer
 - Thunderbolt 4
 - Thunderbolt 3 (Intel or M1 based Mac's)
 - USB PD Support
- (Optional) USB-C Video Adapters
- (Optional) Laptop Lock x 1

For the latest requirements, please visit www.startech.com/

Powering the Docking Station

1. Select the appropriate regional **Power Cord** and connect it to the **Universal Power Adapter**.
2. Connect the **Universal Power Adapter** to the **DC 20V Port** on the rear of the **Docking Station** and to an **AC Electrical Outlet**.

Connecting a Host Computer

Thunderbolt 4 Host

- Connect a **Thunderbolt 4 Cable** (included) to the **Thunderbolt 4 Host Port** on the front of the **Docking Station** to a **Thunderbolt 4 Port** on the **Host Computer**.

Note: Driver installation is not required.

Regulatory Compliance

FCC - Part 15

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by StarTech.com could void the user's authority to operate the equipment.

Industry Canada Statement

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe [B] est conforme à la norme NMB-003 du Canada.

CAN ICES-3 (B)/NMB-3(B)

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

(1) This device may not cause interference, and (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

(1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Windows Thunderbolt Approval Pop-Up

When the **Docking Station** is connected to a **Host Computer** that is running a **Windows** operating system that supports Thunderbolt 4, a pop-up message will appear. To use the **Docking Station**, complete the following:

1. In the **New Thunderbolt devices have been attached** pop-up message, click **OK**.
2. In the **User Account Control** pop-up message, click **Yes**.
3. In the **Approve Thunderbolt Devices** pop-up message, do one of the following:
 - To authorize the **Docking Station** each time a connection is established, select **Connect Only Once** in the drop-down list.
 - To authorize the **Docking Station** permanently, select **Always Connect** in the drop-down list.
4. Click **OK**.

Thunderbolt 3 Intel-based MacBook

Note:

- Supports dual displays
- Thunderbolt 3 speeds on host connection and downstream ports
- Requires macOS 11 Big Sur or later

- Connect a **Thunderbolt 4 Cable** to the **Thunderbolt 4 Host Port** on the front of the **Docking Station** and to a **Thunderbolt 3 Port** on the **Host Computer**.

Thunderbolt 3 M1-based MacBook

Note:

- Apple M1 chip supports only a single external display over the Thunderbolt 3 ports
- Thunderbolt 3 speeds on host connection and downstream ports
- Requires macOS 11 Big Sur or later

- Connect a **Thunderbolt 4 Cable** to the **Thunderbolt 4 Host Port** on the front of the **Docking Station** and to a **Thunderbolt 3 Port** on the **Host Computer**.

Warranty Information

This product is backed by a three-year warranty.

For further information on product warranty terms and conditions, please refer to www.startech.com/warranty.

Limitation of Liability

In no event shall the liability of StarTech.com Ltd. and StarTech.com USA LLP (or their officers, directors, employees or agents) for any damages (whether direct or indirect, special, punitive, incidental, consequential, or otherwise), loss of profits, loss of business, or any pecuniary loss, arising out of or related to the use of the product exceed the actual price paid for the product. Some states do not allow the exclusion or limitation of incidental or consequential damages. If such laws apply, the limitations or exclusions contained in this statement may not apply to you.
