

UH1440P USB-C 5Gbps Dual Video Driverless Mobile Dock – 85W Pass-Through Power – DP/HDMI/VGA

Add up to two monitors (DP/HDMI or DP/VGA).

K33853WW

Product Description

Professionals find that they can be more productive when connected to multiple monitors. With more people working between different locations and connecting to different (and often legacy) monitors, a compact, mobile dock that can accommodate these setups is required. The UH1440P USB-C Mobile Dock makes the most of legacy monitors, allowing you to connect up to two DP/HDMI or DP/VGA monitors. Universally compatible, this USB-C driverless dock supports up to 85W power pass-through - ideal if you don't wish to travel with a bulky power brick. Instead, you can use your laptop's USB-C power supply to charge your laptop while also powering the dock. The 10-in-1 design includes three USB-A ports, a 3.5mm audio jack, Micro and SD card slots and one Gigabit Ethernet port.
