IRDM PRO DDR4 DIMM DRAM

IRDM PRO DDR4 is a perfect solution designed for "next gen" processors, which had their premiere at the end of 2020. Half-matte, white heatsink and white PCB, is an unusual color combination on a wide scale, thanks to which IRDM PRO - Hollow White are in line with the trends of custom PCs, which are more and more often built on white components.

MODULE FREQUENCY:

3600 MHz | 4000 MHz

MINIMALISTIC DESIGN

IRDM PRO modules are equipped with low-profile, improved heat sinks, dissipating heat and ensuring stable operation of the computer. Modules are available in two unique color versions: Pitch Black, where the heatsink is painted with matt black paint, and Hollow White with a white heatsink on the PCB in the same color. The minimalist design is especially suitable for computers, new trends in custom built PCs.
