Windows 10 IoT Enterprise

Empower small spaces

- Remove barriers to conferencing and connect your workforce with the HP Presence Control with Audio, HP Presence See 4K AI Camera, HP Presence Mini Conferencing PC, and HP Smart Set Up for huddle and small rooms.

Bring people together

- The intelligent HP Presence See 4K AI Camera wakes on room entry and automatically adjusts the framing of the video with speaker tracking and picture-in-picture modes. The HP Presence Control provides natural room-filling sound.

Quickly report issues

- Report a room issue in two seconds. Remove the friction of reporting room issues like missing chairs, dry markers, trash, temperature issues, and more to IT, facilities, or the café admin with HP Presence Room Assistant.⁹
- HP Wolf Security for Business protects the BIOS with a hardware-enforced, always-on, resilient defense.¹⁹
- Your HP Presence conferencing system utilizes HP Meeting Ready detection when you enter the room to wake your system so you can quickly start your meeting.
- The camera follows you or multiple presenters as they move within the camera's frame with HP Auto Frame. HP Speaker Frame uses picture-in-picture to show the speaker's expressions to build a connection with the audience.
- How you're seen over video calls is as important as how you sound. Get vibrant clarity and make sure viewers never miss a visual cue, even in low lighting conditions with HP Low Light Adjustment.
- HP Dynamic Voice Leveling automatically enhances microphone gain to optimize voice clarity within 3-meters of the microphone. HP AI Noise Reduction uses noise-filtering technology to enhance audio and video conferencing experience even while wearing a mask.
- Remove echo for participants not in the room with HP Presence microphones equipped with HP Rapid Echo Cancellation.
- HP Smart Setup automatically optimizes the audio to the room size and location of HP Presence devices with HP Auto EQ Calibration.²⁰
- Use the multi-purpose cable included with your HP Presence solution to host any UC meeting directly from the convenience of your laptop.²¹
- In two taps you can launch HP Clean Screen that allows you to safely wipe your HP Presence Control or HP Presence Control Plus without disruption or interference. Then, a clean device notice is sent to the HP Presence Insights dashboard.^{5,22}
- Know when a device is physically disconnected from your HP Presence system with Disconnect Monitoring that provides a notice through the user interface.
- With custom multi-UC capability and high-resolution share with no degrade in performance, the HP Presence Mini Conferencing PC is designed specifically to power intelligent conferencing experiences with color-coded input ports to simplify setup.²³
- With Audio by Bang & Olufsen, powerful speakers, and a low-profile sleek design, the HP Presence Control with Audio elevates the conferencing space and puts the controls at your fingertips.²⁴
- Easily deployable and intelligent, the HP Presence See 4K AI Camera wakes on room entry and automatically adjusts the framing of the 4K video based on the number of participants in the room. Speaker tracking and picture-in-picture modes provide your audience with an in-the-room experience.²⁷
- Report a room issue in two seconds with the HP Presence Room Assistant. Now frequent issues like missing chairs, dry markers, trash, temperature issues, and more can be easily reported to IT, facilities, or the café admin.⁹
- Know when something is wrong in the room via proactive monitoring and alerting of device health issues and updates with HP Presence Manager. HP Presence devices report their health status directly to the collaboration portal so you can resolve issues quickly.⁷
- Get better visibility into the user experience and utilization of your conferencing spaces with optional HP Presence Insights that includes HP Room Assistant, deeper insights into meeting experiences and quality via a single pane of glass dashboard.⁵
- Take the guesswork out of reading people by showing close-up views of up to four in-room attendees during a conference. Create an in-room experience for everyone on the conference with HP Presence Panoramic Frame.
