

## MAINSTREAM COMPUTING FOR A VARIETY OF BUSINESS USES

Our smallest desktop series is built to be energy-efficient and has an ultra-compact footprint 5X smaller than a 14" laptop.

## ThinkCentre M90n Nano

Smarter  
technology  
for all

Lenovo

Not much bigger than a smartphone, our smallest PC uses an energy-efficient CPU and provides the functionality of a desktop in a format that's infinitely flexible. Deploy with a single USB-C cable that connects to a compatible display providing both power and video connection. Place on a desk, use one of several mounting options, or slot into the rear bay of our Tiny-in-One displays.

### REASONS TO BUY

Although incredibly small, users will find the performance and connectivity similar to a regular desktop. Configure with up to 2x M.2 SSD drives and a quad-core Intel Core™ i7 processor. Connect peripherals and displays via 4x USB 3.1, 2x USB-C and 1x DisplayPort.

With Modern Standby users can receive emails, VoIP calls, and instant messages while the device is asleep, much like a smartphone.

With advanced power management features and a 15W CPU, this device is one of our most energy efficient computers. Optimized to reduce power consumption, with Energy Star® and EPEAT® Silver certifications.

# ThinkCentre M90n Nano

## KEY SPECIFICATIONS

|                  |                                                                          |
