Headphones Splitter - Dual Aux 3.5 mm Stereo Y Splitter Adapter Cable (M/2xF) - Share your audio without sharing your earbuds

The Manhattan Stereo Audio Aux Splitter Cable lets you share videos and music with your friends and family without sharing your earphones. It converts a single 3.5 mm stereo jack into two jacks so you and a friend or family member can enjoy a movie from the same laptop or iPad[®] through your individual headphones on a plane, train, bus or backseat of a car. This Headphones Splitter is ideal for keeping the kids entertained on family road trips. Thanks to its slim design, you don't have to take your case off your phone or tablet.

Perfect conductivity with Oxygen-free Copper (OFC) and gold-plated contacts

For best sound in HiFi quality, conductivity is everything because it maintains the integrity of the sound signals. To achieve maximum signal integrity, this cable comes with 24 karat gold-plated contacts and pure OFC wire. For additional physical durability, the cable's aluminum boots help withstand daily or on-the-go use and a lot of plugging/unplugging. The durable nylon-braided jacket with strain relief remains highly flexible in all connection scenarios.

Features:

- One male and two female 3.5 mm stereo auxiliary connectors to split a
