EPOS Enterprise Solutions

Headsets & Meeting Solutions

Certified for Microsoft Teams

The EPOS and Microsoft Partnership

Get a seamless Microsoft Teams experience

Getting the most out of your Microsoft Teams investment means matching with the best possible communication tools – because ultimately, bad audio is bad business. Our Microsoft Teams certified headsets and speakerphones have been rigorously tested to ensure compatibility with Microsoft Teams and Microsoft® Office 365. This means you get a seamless Microsoft Teams experience and can jump straight into your meetings with superior audio that helps you focus on what you do best.

Empower teams with Microsoft Teams Rooms

Now that the hybrid workplace is our working reality, Microsoft has developed Microsoft Teams Rooms to empower teams regardless of their individual locations through richer and more interactive collaboration experiences. EXPAND Line speakerphones including EXPAND 30T and EXPAND 80T, as well as our intelligent speaker, EXPAND Capture 5, and video conferencing solution EXPAND Vision 3T are Certified for Microsoft Teams and Microsoft Teams Rooms.

Try and buy with the EPOS trial program

The EPOS professional trial program gives you the opportunity to experience a full range of headsets and speakerphones before you decide on the best solution for your business.

For more information or to enroll in the program, please visit:

We develop premium solutions that deliver excellent audio experiences so individuals and teams can reach their goals and perform better

Bad Audio is Bad Business

In a world where time is money, flawless, intuitive communication and effortless collaboration is essential for success.

- In the office, on-the-go or at home
- In conference collaborations or during business travel

At EPOS, we innovate and craft technologies that aim to improve your communication and collaboration, empowering you to increase productivity and focus. To unleash your potential and achieve more.

95%

admit concentration and efficiency at work suffer due to sonic setbacks

20%

have experienced dissatisfied clients due to poor sound quality

29 minutes

are lost every week, per employee due to poor sound quality on voice calls

Video Enables the Hybrid Workplace

Human beings are social creatures – we need to connect to succeed. Recent studies reveal how video conferencing is booming because of the rapid increase in hybrid working.

EPOS is committed to developing a new standard of video conferencing solutions that enable simple, effective video collaboration and unleash the potential of your entire team.

Video chats boost happiness*

* "Remote work trend report: meetings", By Jared Spataro, Corporate Vice President for Microsoft 365: www.microsoft.com/en-us/microsoft-365/blog/2020/04/09/remote-work-trend-report-meetings/#.Xo9CTVQjvCA.linkedin

Certified for Microsoft Teams and Ready for the Remote Workplace

In today's new reality of the remote workplace teamwork is a number one priority. Now more than ever effective collaboration is essential for your company's success. EPOS has a wide range of headsets, speakerphones and video conferencing solutions that are certified for Microsoft Teams making it even easier to collaborate with your team through one of the world's most effective collaboration tools.

Dedicated Microsoft Teams button

In an instant, users can launch the Microsoft Teams application via a dedicated button on certain certified headsets and speakerphones. This makes activation easier than ever and ensures that users can focus on the task at hand. This integration provides users with the best possible audio quality for their meetings. It means you can jump straight into your meetings quickly and easily, at home, at work, on the go, and everywhere in between.

A seamless collaboration experience

You also get full call control of the Teams platform from your EPOS certified device. Meaning you can answer/end calls, mute or put calls on hold, as well as control volume. In addition, the LED on the dedicated button on certain headsets and speakerphones will provide Teams notifications on your EPOS device via a pulsing light, indicating whether you've had a missed call, voice message or if the meeting has started.

Certified video conferencing solutions

With the EXPAND Vision 3T you can immerse yourself in all the familiar features of Microsoft Teams with just one touch. EXPAND Vision 3T is also certified for Microsoft Teams Rooms on Android.

ADAPT Line Headsets

Work wherever, whenever

All the ADAPT Line headsets from EPOS have now been certified for Microsoft Teams to enable intuitive, streamlined integration with this market-leading collaboration tool. It's a line of versatile, wireless headsets inspired by the versatile needs of today's busy professionals. Whether in the open office environment,

on-the-go or working remotely you get crystal clear Teams calls, and state-of-the-art Active Noise Cancellation (ANC) in a variety of comfortable, contemporary designs. This means that you can communicate and concentrate without compromise in a range of different sound environments.

IMPACT 100 Series

- Enjoy more natural-sounding conversations and great quality audio with headsets designed for enterprises introducing Unified Communications. Experience the difference unique EPOS technology can make to your efficiency and well-being.
- Certified for Microsoft Teams
- Integrated call control and USB connector
- Choice between single-sided or double-sided variants
- ActiveGard® technology protects users against acoustic injury caused by sudden sound bursts on the line

EXPAND Line Meeting Solutions

Seamless collaboration

With the EXPAND Line we've raised the bar when it comes to teamwork. All our speakerphones enable instant conference calls with superior audio, are easy to use, and configure automatically with all your devices. While our intelligent video conferencing solutions keep everyone in the picture, ensure absolute audio clarity and enable you

to join meetings with just one touch. EXPAND Line speakerphones, video conferencing solutions and intelligent speakers also have variants that are certified for Microsoft Teams and Microsoft Teams Rooms to ensure a seamless Teams experience when uniting across locations, borders, and time zones.

What is Microsoft Teams Rooms?

A 'Microsoft Teams Room' can in principle be any meeting room that you find available – for it to function however, you need a set of hardware devices. Microsoft Teams Rooms can vary in size from small to medium-sized meeting rooms and larger conference spaces depending on the audio and video peripherals used.*

Which devices are required?

The following components are needed to make a complete Teams meeting room, please note that some manufacturers combine several of the necessary components into one single unit so there might not be a need to purchase all the separate components. Also notice, the devices with a dotted line are optional. In order to save time, money and other resources, it often makes sense to create a 'Ready-to-go room' that includes cables of the appropriate length, cable management, and additional components that are ready to use.

Required

Optional

* To see which EPOS products are used for the different sized meeting rooms, see the appendix in the back of this brochure.

How Can Microsoft Teams Rooms Empower You?

Microsoft Teams Rooms means you can turn any room into an inclusive collaboration space so that everyone gets a place at the meeting table, no matter where they sit. The EPOS intelligent speaker, EXPAND Capture 5 is certified for Microsoft Teams Rooms. It delivers advanced voice recognition enabling

a live automated transcription of your meeting. The transcription is searchable, making it easy to take decisions and assign actions after meetings. Furthermore, Cortana can be used optimally throughout your meeting to sync calendars and arrange next steps.

Certified Devices

EXPAND 30 Series

- Portable wireless Bluetooth® speakerphone for instant conferencing anywhere
- Exceptional audio performance for conference calls, music and multimedia
- Personal conferencing or up to 8 participants

- For larger meetings attach up to two expansion microphones for a Microsoft Teams certified experience
- Four beamforming microphones
- Smart cable management for professional, stylish meetings
- Plug-and-play conferencing
- Statement Scandinavian design

EXPAND Video Conferencing

Video for Today's Smart Office

In today's working world video conferencing is becoming increasingly essential. High quality video conferencing solutions enrich the virtual meeting space replacing the need for expensive, unsustainable travel with an excellent alternative to face-to-face meetings. Seeing a clear image of your remote counterpart boosts the productivity of your meeting with all the nuances of expressions and body language.

Our EXPAND Line video conferencing solutions offer an unrivalled meeting experience with full HD video, exceptional voice pickup and noise cancellation – powered by EPOS AI™. These simple, all-in-one solutions work at the touch of a button, providing all you need in one device to make your meeting room a hub of productivity. With such reliability installed in your workplace you can feel as connected to your remote colleagues as if being in the meeting room together.

We call it – video collaboration reinvented.

Certified for
Microsoft Teams
