1080p Full HD Webcam

1080p Full HD webcam with noise-cancelling microphones; perfect for video chats

Key features

- Clear images with a 1920x1080 full HD resolution at 30 frames per second
- Two integrated microphones for noise-cancelling and clear audio
- An activity indicator light shows when the webcam is in use
- Easy-to-use USB connection; plug and play
- Universal stand; can be placed on a desk or monitor
- The integrated ¼" thread allows for placement on a tripod (not included)

What's in the box

- Webcam
- User guide

System requirements

- Windows 7 / 8 / 10
- Intel-based Mac devices (macOS 10.15 or higher)
- USB-A port

Call in Comfort

The Trust Tolar Full HD Webcam puts the comfort into (business) video calling. With premium, convenient features such as high-resolution video, two integrated microphones and a universal stand, the Tolar helps you take calls in great comfort.

Sound and Look Great

Rely on your webcam for worry-free conferencing; with premium audio and video quality, you can now look and sound great in every call. The full HD resolution (1920x1080p) at 30 frames per second ensures pixel-free images, while the two integrated microphones pick up voices clearly and cancel out surrounding noises. Plus, the activity indicator light shows when the camera is on, so that you can be sure of when you're visible.

Simple Connectivity

With plug-and-play USB connectivity, setting up the Tolar is a breeze. Once the USB receiver has been plugged into your desktop or laptop, you can start calling straight away. Use the Tolar with all major video-conferencing software, such as Zoom, Teams and Skype.

Multiple Placing Options

The universal stand can be used in two ways: either clip it onto your monitor or place it on your desk. Alternatively, you can also opt to mount the camera on a tripod stand (not included), thanks to the integrated 1/4" thread.
