

## BUSINESS DEVICES THAT ARE A CLASS APART

The ultimate device for any mobile worker or executive, ThinkPad X1 Series combines the latest productivity and security technologies with sleek and lightweight designs.

# ThinkPad X1 Carbon Gen 8

Smarter  
technology  
for all

Lenovo

Designed with mobile workers in mind, our thinnest, lightest and first Intel Athena Certified device checks all the right boxes, and then some. The carbon-fibre and magnesium alloy body is resilient to everyday knocks and bumps. The 19-hour battery comfortably lasts all day, giving users the freedom to work when and where they want. And it's impressively fast – high-speed SSD storage, resumes from standby in an instant, dedicated keys to manage VoIP calls and modern connectivity ports including Thunderbolt 3.

## REASONS TO BUY

The Dolby Atmos speaker system delivers truly immersive sound, with 2x 2W and 2x 0.8W speakers built into the device. Choose the 4K Dolby Vision HDR display for exceptional contrast, brightness and colour depth, or the optional Privacy Guard screen to ensure privacy against shoulder surfers.

A suite of security features, including onboard TPM 2.0 chip, fingerprint sensor and optional IR camera for facial recognition, keep sensitive business data from falling into the wrong hands.

Minimal preloaded applications mean maximum battery life and responsiveness for users, and faster deployment for IT admins.
