

ThinkPad X13s Gen 1

Today's mobile workforce, logging in from anywhere, look for productivity boosting features in their devices. This Qualcomm Snapdragon powered ThinkPad comes with up to 32GB memory, and up to 28-hours of battery life, so users can keep working for as long as needed. Thanks to 5G-enabled Sub 6 and 5GmmWave connectivity, it operates at an ultra-fast speed for high-quality video conferencing, and hassle-free editing and collaboration experiences.

At 1.06kg (2.35lbs), this thin and light device lets users multitask easily. With 2 USB-C 3.2 ports, you can charge other devices or transfer data quickly. The optional Nano sim-card slot enables easy connection to cellular networks on the fly.

Keeping data secure on the move is made possible with its optional computer vision technology with user-specific recognition, even when one is wearing glasses or has a facemask.

Minimal preloaded applications mean maximum battery life and responsiveness for users, and faster deployment for IT admins.
