## Specifications

|                    |                                |              |
|--------------------|--------------------------------|--------------|
| Features           | CAS latency                    | 3            |
|                    | Component for                  | PC/server    |
|                    | ECC                            | No           |
|                    | Internal memory                | 0.128 GB     |
|                    | Internal memory type           | PC133        |
|                    | Memory clock speed             | 133 MHz      |
|                    | Memory form factor             | 168PINS DIMM |
|                    | Memory layout (modules x size) | 1 x 0.128 GB |
|                    | Memory voltage                 | 3.3 V        |
|                    | Product colour                 | Green        |
|                    |                                |              |
| Other features     | Capacity                       | 0.128 GB     |
|                    | Chips organisation             | 16M*8        |
|                    | Number of pins                 | 168          |
| Packaging data     | Package type                   | DIMM         |
|                    |                                |              |
| Vendor information | Brand Name                     | CoreParts    |
|                    | Warranty                       | 10 Year(s)   |
