

BUSINESS DEVICES THAT ARE A CLASS APART

The mid-range ThinkPad L Series offers enterprise docking, enhanced security features and optional remote management capabilities.

ThinkPad L14 Gen 2 (Intel)

The right device can help your workforce adapt effectively to the changing times. This 14" laptop, powered by the latest Intel Core processors, allows business professionals to work efficiently from anywhere. Experience faster internet speeds through WiFi 6 or the optional 4G WWAN module. There are short-cut keys for managing VoIP calls, and Modern Standby which can be configured to update emails and cloud-based apps even when the device is asleep.

REASONS TO BUY

Choose between FHD and HD display options; both come with an anti-glare coating that makes it easier to see the screen. There are 2x USB-C ports for high-speed data transfer and connection to external displays or other essential peripherals.

The device can last more than 7 hours and also supports rapid charging for uninterrupted productivity. Security features include an optional IR camera with built-in privacy shutter, onboard fingerprint reader and data encryption technologies.

Minimal preloaded applications mean maximum battery life and responsiveness for users, and faster deployment for IT admins.

ThinkPad L14 Gen 2 (Intel)
