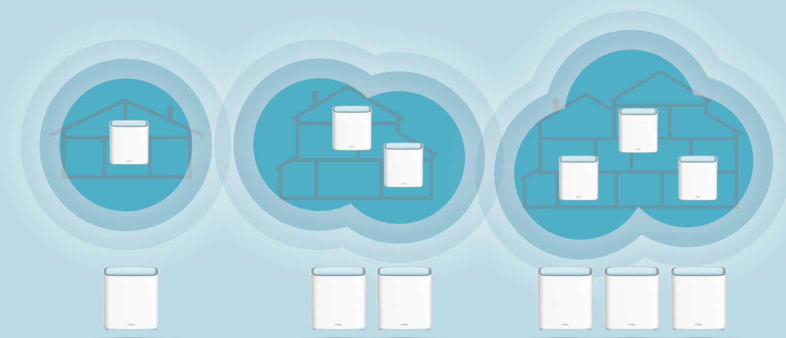
EAGLE PRO AI
AX3200 MESH SYSTEM M32

2 PACK
Great Value

D-Link

EAGLE PRO AI
AX3200 MESH SYSTEM M32



Optimisation
The EAGLE PRO AI engine automatically keeps you on the optimal channel

Improvement
Mesh nodes collaborate with each other to optimise network traffic

Connectivity
The EAGLE PRO AI app provides notifications and usage reports to help you manage your network more efficiently

Expandability
The EAGLE PRO AI series can scale to any size home for dead zone free Wi-Fi coverage

One Connection – Infinite Possibilities

DE DEUTSCH
- Next-generation dual-band Wi-Fi 6 for higher speeds (up to 3200 Mbps) and greater capacity
- Blankets up to 510 sqm of your home in smart mesh Wi-Fi, powered by D-Link AI
- Easily extend your mesh Wi-Fi with additional D-Link AI Mesh Systems and Extenders
- Gigabit Ethernet LAN and WAN ports

D-Link

EAGLE PRO AI
AX3200 MESH SYSTEM M32

Wi-Fi 6 Performance
Future-proof your Wi-Fi with coverage that's better, faster, and more efficient

Gigabit Ports
Plug in smart TVs, game consoles, and other devices for a fast and reliable connection

Clean Network
Compliant with the latest security standards like WPA3™ and IEC 62443-4-1

Voice Control
Works with Amazon Alexa and Google Assistant for convenient voice control

Wi-Fi 6 is better, faster and more efficient, with improvements like:
- OFDMA for more throughput
- BSS colouring for less interference
- More Wi-Fi streams for shorter response times
- Target Wake Time for longer device battery life
- Beamforming technology makes Wi-Fi connections more precise

AX3200 Speeds[2]
Up to 800 Mbps (2.4 GHz)+ 2402 Mbps (5 GHz)

Mesh Smart Roaming
Create whole-home mesh Wi-Fi with one network name and automatically connect as you move through your home

[1]The theoretical coverage in D-Link Lab testing may vary in different environments. [2]Maximum wireless signal rate derived from IEEE 802.11ax specifications. Network conditions and environmental factors, including volume of network traffic, building materials and construction, and network overhead, lower actual data throughput rate. Environmental factors may adversely affect wireless signal range. An 802.11ax client device is required to achieve maximum speeds and performance. All references to speed and range are for comparison purposes only. This device supports 802.11ax on the 5 GHz band only.
Product specifications, size, and shape are subject to change without notice, and actual product appearance may differ from that depicted on the package.

System Requirements
- Cable, DSL or Fibre modem or router with one available Ethernet port

For setup using D-Link Ai app:
- iPhone, iPad, or Android smartphone or tablet which supports the EAGLE PRO AI app

Package Contents
- 2 x AX3200 Mesh Router (M32)
- 2 x Power Adapter
- Ethernet Cable
- Quick Start Guide
- Warranty Information
