HP Latex 2700 W Printer

The high-performance, cost-effective wide format printer with a sustainable edge and white ink

Print your way to higher margins with white

- Produce high-margin applications on precoloured and transparent media with the whitest
- No waste between white jobs with automatic recirculation and printhead stored in offline rotating chamber.
- You can grow into high-margin jobs with 30% wider gamut at high speed, preserving media gloss, feel.3
- Ensure consistent colour and quality configurations across your global fleet with HP Configuration Center.⁴

Accelerate production efficiency to the next level

- Productive and cost-effective—vivid colours at 89 m²/hr, opaque white at 45 m²/hr.⁵
- Increase efficiency—automatic printhead cleaning and intuitive interface with guidance help save time/money.
- HP Professional Print Service Plans⁶—for proactive support, workflow control and trainings to grow.6

GO BEYOND—Lead with environmental $certifications^7$

- Contribute to a comfortable⁸ working environment with water-based HP Latex Ink technology.
- Differentiate your business with environmental certifications $^{\tilde{7}}$ —including UL ECOLOGO $^{\otimes 9}$ and UL GREENGUARD Gold. 10
- Access the most sensitive spaces with odorless prints⁸ and compatibility with a wide range of alternative substrates. 11
- Reduce your plastics consumption with cartonbased cartridge¹² and labelless supplies; free recycling via HP Planet Partners.¹³

This printer is intended to work only with cartridges that have a new or reused HP chip, and it uses dynamic security measures to block cartridges using a non-HP chip. Periodic firmware updates will maintain the effectiveness of these measures and block cartridges that previously worked. A reused HP chip enables the use of reused, remanufactured, and refilled cartridges. More at: http://www.hp.com/learn/ds
